DETAILED ACTION

Receipt is acknowledged of the information disclosure statements filed 06/07/2004 and 08/10/2005.

Election/Restrictions

Applicant's election without traverse of Group I in the reply filed on 08/07/2007 is acknowledged.

Claims 25-33 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 08/07/2007.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 sets out a medical article comprising a therapeutic agent and release region comprising a polymer and an inorganic platelet particle filler. Claims 2, 3 and 5 then set out a release region comprising the therapeutic agent. The structure of the medical article is therefore indefinite in that it would appear that the therapeutic agent is separate from the release region form claim 1, and yet part of the release region in

claims 2, 3 and 5. If the first is true, then claims 2, 3, 5 lack proper antecedent basis. If the second is true, claim 1 (and all claims which depend from it) does not particularly point out that the therapeutic agent may be part of the release region. Clarification and correction are requested.

The provisional US application to Jimenez (US20030143350) is cited for its teaching of a balloon catheter comprising a polymer and nano-clay material. No therapeutic is disclosed in the application.
